Product	Description
ICHP40PP+ILCZ0 	<b>Petrus</b> <b>Petrus</b> is a design light point made up of an elegant concrete pole and a Citizen luminaire. The combination of both elements results in an ideal light point for urban environments where its decorative value is important. Moreover, it is fully resistant to corrosion, which makes it ideal to be installed on the seafront or in places with high levels of salinity. Optional: - Anti-graffiti treatment. <a href="#">Data Sheet</a>
PA663 	<b>GEA</b> <b>GEA, the bin made with the waste thrown in the bin</b> This bin belongs to the <b>sustainable design</b> street furniture collection. Entirely made of recycled polymers, recovered from post-consumer plastic. Attractive design and high functionality. Resistant to UV rays, water and bad weather conditions. Thanks to its features, GEA is a bin that can adapt to all kinds of public spaces. Inner bin with hinged ring to fix the bag. Recommended anchoring: by means of three M8 expansion bolts. Gea, the bin designed for a <b>more sustainable</b> future... One more step towards <b>sustainability</b> <a href="#">Data Sheet</a>
UM359S 	<b>Petrus</b> Chair made of precast textured granite grey concrete. May be positioned individually or in groups. Recommended anchoring: free-standing. <a href="#">Data Sheet</a>
UM359SR 	<b>Petrus</b> Chair made of precast textured granite grey concrete. May be positioned individually or in groups. Recommended anchoring: free-standing. <a href="#">Data Sheet</a>
UM359T 	<b>Petrus</b> Deck chair made of precast textured granite grey concrete. May be positioned individually or in groups. Recommended anchoring: free-standing. <a href="#">Data Sheet</a>
UM521I 	<b>Atlas Shower with Footwash</b> Most beaches include showers, thus allowing people to remove the sand after enjoying a day at the seaside. <b>Product highly resistant to corrosion, offers high durability outdoors.</b> <a href="#">Data Sheet</a>

Product	Description
UM522I 	<p><b>Atlas</b>            Most beaches include showers, thus allowing people to remove the sand after enjoying a day at the seaside.  <b>Product highly resistant to corrosion, offers high durability outdoors.</b>            Structure and taps made of bright polished stainless steel, resistant to bad weather conditions, humidity, UV rays and high temperatures.            Installation : network connection, 3/4" gas inlet.</p> <p><a href="#">Data Sheet</a></p>
UM565 	<p><b>Petrus</b>            Inclusive design fountain made of concrete. Combines the robustness of an ideal material for an element that is in contact with water, with the lightness of an elegant design, capable of integrating into any unique environment.            Easy installation as the fountain is equipped with the necessary connections for both the entry of water and its drainage. Does not require visible drain grates, which are often a source of problems related to splashing, oxidation, maintenance, water accumulation, bad odors, etc.            It has been designed respecting accessibility standards so that the fountain can be used by wheelchair users.</p> <p><a href="#">Data Sheet</a></p>
VMFUT 	<p><b>Futtoc</b>            Revolutionary street sport. Designed by and for football lovers.</p> <p>FUTTOC - Like table tennis without rackets; like volleyball with no hands; like football without goal posts. Feet, chest, head, knees; anything goes, even climbing up on the table around 70 cm above ground.</p> <p><a href="#">Data Sheet</a></p>
