

100% recycled plastic WITHOUT maintenance

Seating system consisting of an individual item or 'vertebra', which enables the building of architectural sets. The shape of the 'vertebra' element can be either straight or curved.
Besides its functional and geometric flexibility, it is made of recycled plastic recovered from urban selective collection, 100% recycled and recyclable, Eco-friendly material, resistant to bad weather conditions and water. Does NOT require maintenance and is pleasant to the touch.
