# Reb 2 planos

JREB20000

3+ | Certified **EN1176** product

The REB line is entirely designed with **eco-design** criteria and open gameplay in mind. Games are manufactured from profiles of **100% recycled and recyclable ReBnew plastic**, recovered from the fraction of packaging collected through selective collection. Bearing in mind that plastic waste takes between 100 and 1,000 years to degrade, with this creative reuse, we promote the circular economy.

Swing with flat seats: Swing composed of recycled plastic profiles, steel crossbar.

Materials:

Structure, Structural Panels, ReBnew: 100% recycled plastic is a material with a dark ocher or light gray hue applied to ensure mass coloration. This, together with its irregular surface finish, makes the plank extremely durable as it perfectly conceals possible scratches caused by acts of vandalism. It requires no maintenance, does not splinter or crack, nor does it rot or dry out.

- Weather resistance.
- Resistant to oils, acids, and seawater.
- Does not degrade.
- Does not splinter.
- Antigraffiti.
- Moisture resistant, does not absorb water, dries quickly.
- ECOLOGICAL: derived from recycled material and is recyclable.
- Long lifespan. 100% Recyclable.
- No contaminants.
- Manufactured from high-quality recycled plastics.

Metal parts, Metal: Hot-dip galvanized steel.

Chains: 5mm links of AISI 304 stainless steel.

Fasteners: Electro-galvanized and stainless steel 8.8 DIN267, AISI-304.

- None of the materials require special treatment for disposal.
- If the equipment is subject to heavy use, the maintenance plan should be increased.
- Do not use the product before completing installation/maintenance.
- Refer to maintenance instructions.

Largest piece (mm): 2400x400x400 / Heaviest piece (kg): 26.

IMPACT ZONE: Required safety surface. Flooring should be coated according to EN1176-1:2017.
Spare parts availability: 10 years.

Ground anchoring screws not included.

Playful features:

BENITO
